End Stigma ON HIV/AIDS

Today-1st December 2023- marks the annual observance of World AIDS Day, under the theme 'Let communities lead' this time around.

Health professionals around the globe make it known that with the advance of modern medicine, being infected with the sexually transmitted virus is no longer a death sentence compared to the years gone by. Equally though, they also caution within the same breath that this does not mean that individuals can go about being carefree about their status and prance around in a promiscuous fashion.

Here in St.Kitts-Nevis, there are 225 recorded with the HIV infection. As most of us would know, HIV is the virus that causes AIDS. In various societies on a global scale, persons infected with the virus are discriminated against for being 'dirty' due to that kind of stigma label.

Educational campaigns over the years have been heavily aimed at helping to remove such stigma. In many instances, it has been explained to the listening and viewing public that one cannot transmit the virus by hugging someone who is infected. The takeaway from such a message is that as humans we must show love to each other and not scorn those whose status is positive for the virus.

Most recently, on 21st July 2023 saw a new global campaign to end HIV stigma dubbed #ZeroHIVStigmaDay as spearheaded by the International Association of Providers of AIDS Care (IAPAC) in collaboration with

partners.

As gleaned from media communication sourced via www.iapac.org, that Zero HIV Stigma Day is a new international HIV awareness day.

As gleaned from the media communication, the aim of such a day is geared towards uniting people, communities, and entire countries to raise awareness about and take action to end HIV-related stigma that both violates human rights and jeopardizes efforts to end the global HIV epidemic.

As explained, the chosen theme "Human First," emphasizes the human dimension of people living with and

affected by HIV and reinforces that any form of stigma encountered by people living with HIV is a human rights violation.

Truth be told, no one would ever want to feel shamed by anyone for their health status. If no one is aware of another's status then they are treated "normally" and on the flip side brings about the opposite. This is quite unfortunate and inhumane.

At the same time, everyone has a responsibility to practice safe sexual behaviour and know his or her status in order to take care of his or her well-being.

As communities, we must lead with empathy and care for each other in ending the stigma.

House Fire Victim Talks About Staying Close Area

... “I MISS HOME”

By: Precious Mills

BASSETERRE, St.Kitts (Thursday 30th November 2023)- Having lived at his residence in the West Basseterre community for forty-one (41) years, Leon ‘Lebo’ Mathew is saddened about the situation yet hopeful that one day he will be able to rebuild his two-bedroom home lost in a recent fire incident.

At a handover ceremony held on Thursday 30th November 2023, on site of the burnt property in Russell Village, he was the recipient of groceries and toiletries donated by Pyramid Security Consultancy who partnered with the police in the community-assistance outreach.

“I appreciate this”, commented Mathew having received the items. According to him: “I can’t do nothing about it [right now] but I give God thanks and praise for life.”

He is presently staying with a sister who lives nearby. Mathew is of the opinion that “idle hands” are to blame for what he suspects to be a case of arson. The house fire took place on Friday 24th November, totally destroying the wood and concrete structure occupied by the elderly man.

“Everything bun up. I aint had no current in de house and me ainâ€™t cook de Thursday nor de Friday so me ain’t leave on nothing and I don’t leave on nothing. I stay here and be happy and some ignorant person... some willful youth [did this].”

Asked how he felt about the house fire, he commented: “Sad. I just hold down me head and said ‘Lord, Father God’... I [raised] up me [four] children in dis house... me and dey mother. I here on me own 23 years now ...I ain’t disturbing nobody; me and everybody good.”

As gathered, he was not at home when the fire incident took place at about 2:30 PM that day.

“I was out dere by de lady who does sell local drinks sitting down...” He went on to share that he and a friend we “Went Camps to pick up a grill; we aint even spend half an hour”. He said by the time he came back he found out his house was on fire.

Speaking about his hope to rebuild at some point, Mathew said: “As long as I get the help; the support, I got guys out there who are willing too; they keep telling me whenever I’m ready I should let dem know.”

Chief Executive Officer (CEO) of Pyramid Security Consultancy Kai Jareth Liburd commented: “We are villagers helping to rebuild villagers in the time of need so we got you ...we will do whatever recovery efforts we can to help you back on your feet. It’s tragic what happened to you. I condemn any acts of violence and crime and I hope the person comes to term with themselves and would admit and confess to the police what they did so you can move past because It’s hard for somebody to work all the days of their lives and in their old age to just lose it all...but everybody got you, the inspector,, the police force.”

Police Inspector Alrick Edwards-who is the Chief Operating Officer (COO) of Pyramid Security Consultancy-highlighted that his cousin CEO Liburd reached out to him about making such a donation.

“This morning we are gathered here this morning to show Leon ‘Lebo’ Mathew. I know ‘Lebo’ since I was a young footballer in de Villageâ€¦[We are here] to show support and give him a step on the road to recovery. We know that what he has lost and what we’re doing can’t compare but it’s a good gesture...”

“...because I know the [Police] Commissioner’s mandate is to have a better community policing initiative with the community, I decided to reach out to Sergeant [Charmaine] Audain ‘who is the sergeant in charge of the National Intervention Team to be here as she is the person responsible for community policing in the police force in general.”

For persons interested in making donations, Mathew shared that he is usually close by in the area. His phone was destroyed in the fire.

Asked if his choice to remain nearby is because he wants to remain close to home, he expressed: “Yeah, I miss home, I miss home. I could have go down by me daughter-

in-law and me son because they tell me ‘Sine Friday we looking for you’... I tell dem I might come but a just stay nearby. Me aint looking for nothing but just cleaning up de place...”

As understood, over the years, he has been his own maintenance and repair man as he has been in the construction field since he was 19-years-old.

Health Educator: 13-Year-Old Among HIV Infected Persons

By: Spokesman
Newsroom

BASSETERRE, St.Kitts (Tuesday 28th November 2023)-Statistics of individuals infected with the sexually transmitted virus HIV in St.Kitts and Nevis includes a 13-year-old in the over 200 cases recorded to date.

Such information was revealed by health educator and counselor, nurse Lucine Pemberton-Vaughan from the Ministry of Health while making an appearance on Freedom FM’s ‘Issues’ programme aired on Tuesday 28th November 2023. with host Jamie McPhail, as part of an educational outreach to sensitize members of the public leading up to World AIDS Day-observed 1st December.

Health educator and counselor, nurse Lucine Pemberton Vaughan from the Ministry of Health

“This month we have been out. We have been testing persons. We have been doing educational sessions. We have been in the churches, we have been in the schools, we have been in the workplaces, in the communities” We have just been out there spreading the word and reminding persons that HIV is not a thing of the past; that we still have it very much here with us...,” she commented in her remarks.

According to Pemberton-Vaughan: “Persons are only living longer because they are being tested and that they were able to access treatment... We have persons as young as 13 years. We have a 13-year-old who is infected and we have up to 75, and we need to keep the word out there that persons need not be afraid to come forward to get tested. It is another chronic illness like diabetes and hypertension. Long ago, persons took thirty (30) tablets a day. Now, we have it in just one pill but we don’t want persons to really get too comfortable with that. An ounce of prevention is better than an ounce of cure.”

“We want persons to take that personal responsibility to protect themselves so we don’t really want to leave any stone unturned...” she added.

According to her: “So far for this year, we have eleven new cases. Last year we had 23 new cases and I was just told this afternoon that our numbers are up to 225. Now, this is the known cases so you have to multiply that by three or four because each of these persons have partners who have partners and this 225 is just the tip of the iceberg so we have some work that we need to do... we are doing our best, the government is doing its best. We all have our part to play. The Ministry of Health alone cannot carry this burden; it’s an individual affair.”

Questioned about any observation regarding individuals being reluctant to get tested because of the stigma attached, Pemberton-Vaughan replied... “Yes. We as a people are responsible for that. Stigma and discrimination fuel the HIV epidemic. When we shame people, we blame them, we ostracize them, persons are afraid to come out and even sometimes in relationships, people are willing to rarely disclose their status but some persons are really afraid of word getting out. And we want that stigma and discrimination really to be a thing of the past. That was when we were ignorant’ It’s a chronic infection.

The health educator then went on to touch on her dream as it relates to persons attitude towards HIV.

“I have a dream- I would like people to one day say ‘I forgot to take my HIV meds’ and run back home, and the bus stops and somebody says ‘Run go... we waiting for you.’ It’s like ‘I forgot to take my insulin’ and we just want people to be open and honest , and in doing so we will not only help them, we’re helping ourselves because persons will be much more comfortable disclosing their status, and be more honest.”

NIA CHARLESTOWN NEVIS (November 30, 2023)- The Premier's Ministry in the Nevis Island Administration (NIA) is currently accepting work permit and residency applications for 2024.

Premier of Nevis the Honourable Mark Brantley, at his most recent press conference, encouraged non-nationals to ensure their work permit and residency status is legal.

"I have from this rostrum time and time again encouraged our non-national community to ensure that they are within the law and that they are in good standing.

"We welcome non-nationals; we welcome their contribution, but we also insist that they must abide by the laws of St. Kitts and Nevis. And so those who are here on work permit and residency we are currently accepting applications whether new or if you are renewing, you can come in to the Premier's Ministry now and do that for 2024."

The Premier further encouraged those operating and working illegally on Nevis to regularize their status. He pointed out that the government is amenable to working out payment plans for those in arrears.

"The Premier's Ministry has always been prepared to accommodate and to work with

people, but for those who persist in being here illegally and working illegally, you have no one to blame but yourselves if Immigration were to come and knock on your door.

"Some people say they are afraid- there is no need to be afraid. This government has

Agriculture Department Remains Committed To Staff Protection And Well-Being

(MOA Basseterre, St. Kitts, November 30 2023);

It has been brought to the attention of the Department of Agriculture (St. Kitts) that allegations have been circulating and suggesting that workers are not provided with the essential personal protective equipment (PPE) necessary to carry out their duties in relation to working with chemicals designated for agricultural use.

The Department refutes these allegations and wishes to categorically state that the necessary personal protective equipment including gloves, boots, respirators and coveralls have been supplied to the relevant Unit, with the most recent requisition being this past July 2023.

In keeping with Department practice, the PPE is kept in the possession of the relevant staff who is responsible for using the chemical as the equipment is not and should not be shared.

Further, staff is trained once a year by the company that supplies the chemicals specifically in the appropriate use of chemicals and proper use of PPE. This is in keeping with the practice of the Department's safety measures.

The Department has been and continues to exhibit care and concern for workers' safety by providing the essential PPE needed to conduct work activities as well as offering training to ensure appropriate use of PPE and storage of chemicals. It is therefore unfortunate that these unfounded allegations have been circulating in the media.

The Department is committed to the safety and well-being of our workers, and takes all necessary measures to ensure their protection, including the implementation of comprehensive protective care protocols. Any claims suggesting otherwise are inaccurate and do not reflect the reality of our commitment to maintaining a secure and healthy work environment.

MINISTRY OF AGRICULTURE PARTNERS WITH FARMERS CONSORTIUM TO STRENGTHEN BOND BETWEEN FARMERS AND SUPERMARKET CHAINS

(MOA Basseterre, St. Kitts, November 29 2023);

In a significant move towards enhancing the agricultural landscape, the Government of St. Kitts and Nevis, through the Ministry of Agriculture, Fisheries, Marine Resources and Cooperatives partnered with the St. Kitts Farmers Consortium as part of efforts to strengthen the relationship between farmers and supermarkets.

This began with a series of meetings led by Permanent Secretary in the Ministry of Agriculture, Mr. Miguel Flemming who was accompanied by a small delegation of Unit Heads, technical staff and President of the St. Kitts Farmers Consortium, Meshach Alford on both Friday, 3rd November and Wednesday, 15th November 2023.

The topics of discussion included the Consortium Production Program, ways to strengthen the relationship between the Marketing Unit at the Department of Agriculture and linkages between food producers and supermarket chains.

The meetings with some of the the key stakeholders, namely Rams Trading Limited and Horsford's Valumart IGA, allowed the group the opportunity to highlight the importance of strengthening the bond between the local supermarkets and food producers and addressed plans that are afoot that will help St. Kitts and Nevis meet CARICOM's 25 by 25 agenda target.

This initiative aims to reduce food imports by 25% by the year 2025 and will ensure that markets are readily available after harvest. The Permanent Secretary has expressed that, "facilitating direct market linkages between farmers and supermarkets is a key focus of the Ministry, considering that networks where farmers can showcase their products to potential supermarket partners provides a direct and transparent connection between producers and retailers."

The stakeholders who will play a pivotal role in the success of this endeavour, expressed their interest and commitment

to support local farmers.

Recognizing the importance of a robust and mutually beneficial partnership, the

meetings concluded with all in agreement with the way forward.

Diabetes awareness takes centre stage on St. Kitts Basseterre Lions Club's 'Glow Walk'

BASSETTERRE, ST. KITTS, November 28, 2023 (MMS-SKN) — As November, which is observed globally as the National Diabetes Awareness Month, comes to an end, the St. Kitts Basseterre Lions Club joined sister clubs in Zone 2C (Antigua, Dominica, and St. Kitts) to raise diabetes awareness through an early evening Diabetes Glow Walk on Saturday November 25.

Held under the theme 'Changing the Face of Diabetes', the Basseterre walk saw participants carrying glowing light tubes and wearing glowing necklaces and armbands gather at the Cenotaph in Fortlands. After prayers by President of the St. Kitts Basseterre Lions Club, Lion Adaeze Hanley, they set off for downtown Basseterre at 6:28 p.m.

"We normally do the 'Journey for Sight' walk, which is a day-time event with the blind and all of that, but this time the idea came up from the Zone, for the clubs in the Zone to do it in the evening," observed President Adaeze Hanley. "It would have been challenging to have other persons - the visually impaired persons as part of it. So what we have is just the members, and friends participating this evening."

Among the participants were Vice President Lion Cedric Liburd; Past President and Diabetes Associate Chair for Region 2, Lion Adora Warner; Past President and Past Zone Chair, Lion Bernadette Dolphin; Past President Lion Patricia Farrell; Past President Lion Merle Liburd; Past Vice President, Mr Ellamorrow Levy; and Past Treasurer Lion Marsha Harris.

According to the President, the Club has in the past been holding daytime walks, Journey for Sight, along with members of the St. Kitts Society for the Blind, but it was the first time they were doing the evening event. The clubs in Zone 2C were communicating during the walk, as the event was held at the same time in their various countries.

"We will make it an annual event, in November which is the month that we do Diabetes Awareness and so on, so today we just wanted to do our special niche," said President Lion Adaeze Hanley. We know that the St. Kitts Diabetes Association would have done their walk, the week before, but we wanted to do something a little different and special for Lions, our Glow Walk."

The Diabetes Glow Walk took participants from the Cenotaph via Bay Road, and at the General Post Office they turned left on to Adlam Street, then right to South Independence Square Street, up East Independence Square Street. On Cayon Street, they turned left and another left to West Independence Square Street, right on to Bank Street, and at the Circus they turned left to Fort

Diabetes awareness takes centre stage...

Members and friends of the St. Kitts Basseterre Lions Club had assembled at the Cenotaph in Fortlands as early as 6:00 p.m., and after adorning themselves with the glowing memorabilia, they set off for downtown Basseterre at 6:28 p.m.

Street, which led them back to the Bay Road, and ended the walk on the Port Zante's parking lot behind the National Museum.

A police officer in a patrol car joined them in downtown Basseterre, and drove ahead of them to give advance warning to motorists of the walk participants as they made their way on the busy Basseterre streets.

Along the way they made a few stops, and when eager members of the public asked what it was all about, they were eager to explain the purpose of the walk. One bystander was overheard saying that he will certainly join them next year as he was concerned that if proper education was not given out to the general public, things could only get worse in the country.

"The glow, in the Diabetes Glow Walk, just means that we are shining and that we are championing the cause - we are glowing in blue, saying that we are with persons who are living with the challenge, and we are committed to assisting in any way that we can as an organisation," pledged President Hanley. "It is one of our global causes and so, we are interested."

Saudi investment fund to buy 10 % stake in Heathrow airport

Departure Hall in Heathrow Terminal 3 in London. - IMAGE SOURCE,REUTERS
By Mariko Oi
Business reporter

Saudi Arabia’s Public Investment Fund (PIF) has agreed to buy a 10% stake in Heathrow airport from Spanish infrastructure giant Ferrovial.

Another 15% in its parent company, FGP Topco, will be sold to France-based private equity fund Ardian.

Ferrovial, which has owned a stake since 2006, announced that the deal was worth £2.37bn (\$3bn).

The transaction is still subject to regulatory conditions, according to the firm.

If approved, the deal would end Ferrovial’s investment in the UK airports’ operator which started at 56% but was reduced to 25% by 2013.

Other stakeholders in FGP Topco include Qatar Investment Authority, Caisse

de depot et placement du Quebec, Singapore’s GIC, Australian Retirement Trust, China Investment Corporation and Universities Superannuation Scheme.

The airport has been losing money this year because of its significant debt which is affected by aggressive hikes in the cost of borrowing.

The Civil Aviation Authority has also decided to lower passenger charges which go towards costs for terminals runways, baggage systems and security.

The average charge per passenger at Heathrow for 2023 is £31.57 but the regulator said this would fall to £25.43 in 2024 and “remain broadly flat” until the end of 2026.

It is understood bosses at Heathrow wanted charges to actually increase to more than £40, while airlines proposed they should be no more than around £18.50.

Saudi’s PIF is one of the world’s most active sovereign wealth funds with more than \$700bn in assets thanks to its oil wealth, which has recently been investing in sport such as football and golf.

But the fund is controlled by Saudi Arabia’s prince Mohammed bin Salman Al Saud whose government has been accused of numerous human rights violations.

US intelligence has said it believes Prince Mohammed ordered the 2018 killing of a US-based journalist, Jamal Khashoggi, though the prince has been given immunity in the US and he has also been invited to visit the UK according to the Saudi Arabian embassy.

He had a memorable series in 2019 when he made an outstanding Test century on home soil in Barbados to help us beat England and win the Wisden Trophy. Uganda: T20 World Cup qualification ‘a dream come true’, says captain Brian Masaba

From the section Sport Africa

Uganda's cricketers celebrate qualifying for the 2024 Men's T20 World Cup

Uganda beat Zimbabwe, who have played at six of the eight previous editions of the Men's T20 World Cup, en route to qualification for the 2024 tournament

Uganda's qualification for the men's T20 World Cup in 2024 is a "dream come true", says their captain Brian Masaba.

Uganda have reached the tournament for the first time after a nine-wicket victory over Rwanda.

The win means the Cricket Cranes finish second in the African qualifiers in Windhoek, Namibia.

"We're still trying to process all the emotions," Masaba, 32, told the BBC World Service's Sportsworld.

"It's been a long process, a long journey. This is the culmination of a lot of sweat, blood and tears.

"As a team it was a very, very special moment for us."

Uganda will join Namibia, who qualified on Tuesday with a game to spare, at the tournament in the United States and the West Indies.

Uganda's run to qualifying included beating Zimbabwe by five wickets in their first T20 International against a full ICC member, which Masaba describes as "the turning point".

"Once we beat Zimbabwe, we knew our fate was in our own hands and the boys stood up," he said.

"This is a big boy, the World Cup! And to be on this platform is something that only happened in our wildest dreams and for us to finally get there is a dream come true for a lot of the guys."

Hear more from Masaba on Sportsworld

They subsequently cruised to a nine-wicket triumph over Nigeria and beat neighbours Kenya by 33 runs on Wednesday, then thrashing Rwanda by nine wickets after bowling them out for just 65 to spark the celebrations.

The team celebrated with a small band of travelling fans after opener Simon Ssesazi hit the winning run to clinch victory and qualification.

Masaba hopes that his team's success can develop the growth of cricket in Uganda,

which does not have a professional system yet.

"There's lots of guys that have had to sacrifice work and family duty and school to pitch up for training and for tournaments," he added.

"Hopefully going forward, maybe we can fully professionalise and it just opens up opportunities for a lot of guys.

"It's shown that given the opportunity and the right facilitation, the game of cricket can grow much bigger in Africa.

"For us, it's opened a lot of doorways and shown the rest of the world that outside the top nations there's also quite a bit of potential and these boys just need the chance."

And while Masaba acknowledged that he and his players "idolise" the likes of global superstars Ben Stokes and Virat Kohli, they are confident of causing some surprise results.

"For my players to interact with some of the big names from India, Australia or New Zealand - that would be very special and something I look forward to.

"We came into this tournament and not many people gave us a chance, but it's cricket, bat and ball.

"We will walk into the World Cup firmly believing that we have a chance to win a couple of games. That's the mentality that has got us through this qualifier and it's the same mentality we'll create at the World Cup."

Zimbabwe's men were the top-ranked side in the African qualifiers at 11th in the world, one place ahead of Namibia.

The Chevrons have played at six of the eight previous editions of the T20 World Cup and reached the Super 12 stage in Australia last year, but will miss out on next year's tournament.
