TS Tropical Storm Gives Reminder

As if some of us here in St.Kitts-Nevis needed a gentle reminder, here came the recent passage of Tropical Storm Phillipe giving us a slight brush with no major damage to report on.

So in a timely follow-up to last week's editorial, came the weather disturbance to remind us to take preparations during the hurricane season very seriously.

The use of social media provides an opportunity for us to see different angles of the disastrous impact of hurricanes and tropical storms at home throughout the region and further abroad.

Most recently, looking around at other neighbouring islands with the passage of Tropical Storm Phillipe, many of us of course realize that indeed we could have been worse. And while we can comfortably count our blessings in this regard, we have to also face the fact that we need to ensure that we prepare properly for any stormy weather conditions.

We have seen the heavy flood waters in Dominica and Antigua and while many residents on St.Kitts and Nevis said they wanted or expected more rainfall throughout the country because 'we need the rain', the saying goes "Be careful what you wish for"™ comes to mind.

On another note, to those thrill seekers who go sightseeing after or during a storm, to capture on their smartphones the flood water and destroyed property to

Condor Comments On UN Ambassador Recall Situation

By: Spokesman Newsroom

BASSETTERRE, St.Kitts (Wednesday 4th October 2023)- "This is a real embarrassment for our country. This is publicity that we don't need, and it is sad that we find ourselves in this position, and the government is going to have to take some steps in terms of making sure we do some damage control on this."

So said former government minister and former ambassador to the United Nations Sam Condor while speaking on Freedom FM's 'Groundings' programme aired live on Friday 29th September 2023 while commenting on the recent recall of Ambassador and Permanent Representative of Saint Kitts and Nevis to the United Nations Nerys Dockery.

He highlighted: "I am not talking about the recalling; I am talking about how we find ourselves in this position."

According to him: "This is just really something I am really unhappy about and the government has to take a look at how we deal with these matters... not only selection but process and leadership, but like I said we're going to discuss these things because they are important for our country-the image of our country."

"That is the biggest stage in the world... Ambassadors were calling me from all over [asking] 'What's happening?' 'How could we help, Sam?' 'This is not looking good'."

'See me first as a parent' Says Ambassador Natta Nelson Following Swearwords Video

By: Spokesman Newsroom

BASSETTERRE, St.Kitts (Wednesday 4th October 2023) - "My sole intention was to protect my child; That's the first thing that I have to do, and worry about everything else after. That's the nature of a good parent - to me in my book."

This was what Ambassador Leon Natta-Nelson said during a recent live Facebook interview with well-known social media video blogger Romnag 'Shaq' Benjamin of Model Cop News (MCN) on Sunday 1st October 2023- in talking about a recent incident which saw him reacting after his 8-year-old son was allegedly robbed of his chain and pushed by a "young man" outside of his home.

Public debate came after a video surfaced via social media which saw him using swear words during a confrontation moment.

He questioned: "How could somebody in front me gate rob me son?"

As understood, the incident took place on Independence Day -Tuesday 19th September.

"This happened, of all days, when we're celebrating 40 years of independence, my child is being attacked on Independence Day," he expressed.

Natta Nelson pointed out that: "My son expressed to his mother who called me immediately that somebody took his chain

Recalled Ambassador and Permanent Representative of Saint Kitts and Nevis to the United Nations Nerys Dockery seen at an event during Diplomatic Week in St.Kitts-Nevis held during the month of April 2023. (SKNIS Photo)

He indicated that those who contacted him were "people who have our interests at heart."

At the biggest stage in the world; there's no bigger stage than the United Nations ...This was in the main hall of the United Nations...This is a serious matter and it needs serious attention which we have to deal with as a country.

Condor alluded that in such a situation, the government would

"have to write to the UN and communicate that we're recalling our ambassador and she will be replaced."

A communique issued by Ministry of Foreign Affairs dated September 27, 2023 said Dockery "has been recalled to Capital for consultations with immediate effect."

It was further shared that: "The Government remains committed to promoting the interests of Saint Kitts and Nevis within the international community and to advancing its principled foreign policy."

Additionally: "Government has identified an Interim Representative who is presently undergoing the accreditation process."

Government of Saint Kitts and Nevis Takes Intentional Steps to Alleviate Water Crisis

Basseterre, Saint Kitts and Nevis, October 6, 2023 (Press Secretary, PMO) - In a significant move to address the ongoing water crisis affecting parts of Saint Kitts and Nevis, the Government has initiated the distribution of water storage tanks to areas most severely impacted by drought. The announcement was made by Prime Minister Hon. Dr. Terrance Drew during his recent press event, 'The Roundtable,' held on October 5th, 2023.

With a keen focus on improving the lives of citizens and ensuring access to a vital resource, the Government is actively taking measures to mitigate the challenges posed by water scarcity.

Prime Minister Drew emphasized that water storage tank distribution efforts are primarily aimed at aiding the economically and financially constrained residents of the "hardest-hit" areas, particularly in Cayon and St. Peters.

Prime Minister Drew stated, "We estimated for those persons who need it most. Economically and financially, they have been constrained at this time and so the Government has gone ahead to introduce a project to address these needs. So, it is really for those who are hardest hit, which are certain parts in Cayon and St. Peters."

In a related development, Prime Minister Drew provided an update on the discovery of a substantial underground water well in the Cayon area. While preliminary tests indicate the water is potable, a thorough 72-hour constant rate pumping test is pending to ensure its suitability for broader usage.

"Right now in Cayon we have discovered the largest well of underground water ever in Saint Kitts and Nevis. We have tested it initially, very potable, good water. We have to do what you call the 72-hour test, where you have the pipes down and you let the water run and you keep testing it. You don't want to just take water from let's say one area and that water is good but the water coming from another area may

not be good", Prime Minister Drew announced. "The well is about 700,000 to 1 million gallons per day which is a significant amount of water. It will eliminate all of the water shortages in Cayon, Keys, and the environs."

The Prime Minister further highlighted that the Basseterre area would also experience relief from water issues as water previously sourced from the Basseterre Valley aquifer would be redirected to serve Basseterre and St. Peters.

Prime Minister Drew added, "The water that used to come from the Basseterre Valley aquifer that supplies this area over here (Frigate Bay area) will no longer be used so that water can

modification, a 2-million-gallon desalination plant will be constructed in the upcoming year" Dr Drew added.

As part of the government's comprehensive strategy, the Bedrock Exploration Development Technologies (BEAD) St. Kitts Ltd will continue drilling efforts across the island in search of additional potable water sources. This initiative includes the installation of additional water storage tanks to efficiently store excess water once discovered.

Prime Minister Drew reaffirmed the administration's commitment to eliminate the water crisis and address the challenges posed by climate change. He also noted that previous administrations had dropped the ball to rectify the water issues facing the nation.

"Water is something you don't play with. Everybody needs water. After air, the most vital thing to the human body is water, air then water then food, in that order. People understand that water is a basic need, and we need to get it done. The administration dropped the ball. And so, we have only been in here for a year and we have responded with desalination, drilling, and water tanks. Those things could have been done since between 2015 and 2017 with the then administration and resolve the water problem."

The Government of Saint Kitts and Nevis remains steadfast in its commitment to providing access to clean and reliable water sources for all citizens, acknowledging the critical importance of water as a fundamental human right.

Nevisian Jada John wins ICDF Mandarin-Speaking Competition

NIA CHARLESTOWN NEVIS (October 02, 2023)- A Mandarin student in Nevis was declared winner of the 2023 Taiwan International Corporation and Development Fund (ICDF) Mandarin-Speaking Competition.

An announcement by the Embassy of the Republic of China (Taiwan) in St. Kitts and Nevis informed that on September 25, Ms. Jada John outshined competitors from nine other nations and her lively expressions and gestures during her presentation left everyone spellbound.

The statement said "It is hard warming to see how Taiwan and St. Kitts and Nevis are forging stronger bonds through different events. This cultural exchange takes the two countries' friendship to new heights."

Meantime, Permanent Secretary in the Ministry of Education Mr. Kevin Barrett recently congratulated Premier of Nevis the Honorable Mark Brantley for being instrumental in the introduction of Mandarin Chinese in schools in Nevis in 2020.

Mr. Barrett noted that Premier Brantley, then Minister of Foreign Affairs in the Federal government, had brought the idea to the Ministry of Education.

"This year, twenty-seven persons on Nevis passed the Test of Chinese as a Foreign Language. We would have had that ceremony on August 31. Last April, some of these same students did what we call the pilot test. I believe the results of that boosted their confidence and led them to make that decision of taking the real test.

"And had it not been for that conversation Mr. Premier and your foresight, we perhaps would not have been celebrating this achievement today," Mr. Barrett said during a ceremony to welcome ROC Taiwan's Foreign Minister His Excellency Dr. Joseph Wu to Nevis on September 19.

Premier Brantley was impressed with the ability of the students on Nevis to speak Mandarin and even sing

communication is critical if we are to know each other. The beautiful thing about the introduction of Mandarin in our schools is that these youngsters now know about Taiwan, the Taiwanese culture and music, and I believe this is very important as we build out our people to people ties."

In addition to lessons at the secondary schools, Mandarin Chinese classes are now being offered to the Nevisian public by Ms. Chen Chi, a professional Mandarin instructor from ROC Taiwan.

ECTEL & NTRCs Amplify Expertise to Combat Radio Frequency Interference

Castries - Saint Lucia - 6th October 2023 - Ten (10) technical personnel of the Eastern Caribbean Telecommunications Authority (ECTEL) and the five (5) National Telecommunications Regulatory Commissions (NTRCs) participated in the Anritsu Radio Frequency (RF) and Microwave Interference Analysis Certification Training course in Miami.

The Certification Training Course which was held from 26th - 28th September 2023 in Miami was facilitated by Anritsu Company and the training was conducted by Mr. Dennis Burt, a senior RF engineer. The Course encompassed fundamentals of spectrum analysis with a focus on radio frequency interference hunting and

finding. Trainees were taught how to make common RF measurements and use them to identify and locate interfering signals.

The lectures and labs were designed around the Anritsu Handheld Spectrum Master (model: MS2720T) which the NTRCs use in the field to conduct spectrum monitoring exercises. All attendees successfully completed the programme and were awarded certificates.

According to ECTEL's Director of Technical Services, Mr. Lawrence Nervais, "The Course was important to ECTEL and the NTRCs because RF interference has become a serious issue that can impact licensed users of the frequency spectrum and it is often difficult to isolate and resolve. Furthermore, this opportunity provides the necessary training so that ECTEL and the NTRCs can resolve complaints of harmful interference."

ECTEL has been the regional regulatory body advising the NTRCs on electronic communications matters in its five (5) Member States namely; the Commonwealth of Dominica, Grenada, St. Kitts and Nevis, Saint Lucia and St. Vincent and the Grenadines since 4th May 2000. In simple terms, ECTEL works with the NTRCs to promote consumer rights and harmonised benefits in the electronic communications sector in its Member States.

Jamaica: Children in hospital after eating cannabis sweets

By Kathryn Armstrong
BBC News

More than 60 children have been taken to hospital in Jamaica after eating sweets containing cannabis, the country’s education minister said.

Fayval Williams wrote on X (formerly Twitter) that the primary school pupils were from the St Ann’s Bay area - about 80km (50 miles) from the capital, Kingston.

She said some children experienced vomiting and hallucinations.

None are reported to be in a serious condition.

“The doctors & nurses are doing all they can to ensure the students recover,” Ms Williams wrote on X, adding that several of the children had to be put on an intravenous (IV) drip.

“One little boy said he only had ONE sweetie. That’s how potent this product is. DANGER!”

Ms Williams said the children were from St Ann’s Bay Primary, but local news agencies have reported that students from the nearby Ocho Rios Primary School were affected. The children are thought to be between the ages of seven and 12.

The principal of the latter school told the Jamaica Observer that a “lone vendor” had sold the sweets to its students.

The head of the St Ann police department, Senior Superintendent Dwight Powell, has urged the person or anyone with information about them to

Coming after the outreach programme's success at McKnight, and Old Road, Tabernacle was awash with colour and splendour as a section of Main Street in the Village was closed to vehicular traffic to accommodate the stage set up to celebrate four community members, along with two young creatives, all who were being honoured.

"This afternoon, Tabernacle, we at the Creative Economy want to celebrate your successes," said Federal Minister of Sports and The Creative Economy, the Hon Samal Duggins. "We want to celebrate your community, and we want to celebrate your people. You see, as you drive around the

Minister Duggins pointed out: "Master Joshua Taylor, the drumming maestro, and Miss Ronija Warner, the dancing sensation, are the future, and their talent knows no bounds, as they have shown in the respective areas and stand as encouragement to all us. The future is promising, and it is for us to ensure that it is a future that is fulfilled to the people of Tabernacle."

“The child vividly explained what happened to him, and so the day went on; he went to play football but I went to the police station and made a report the Saturday.”

Natta Nelson described his boy as “an adorable child... People love de child.”

“I don’t condone violence, I won’t say my aggression was the best but at the end of the day as a parent, what am I supposed to do in a situation like that?”

According to Natta Nelson: “I didn’t just go down there. Some threats were thrown at me and so I went back and I expressed to the young man what I had to say to him. I’m not condoning the words that I used but what was I supposed to do? If that person could come in front me house, well where else they can’t meet me child and try to offend me child?”

He added: “And before I engaged the young man, I had already called the police.”

During the interview session, Natta Nelson said the police are involved and that he is hoping that the matter would come to an end soon.

“My child’s safety is paramount. Everybody’s child safety is paramount. My intention wasn’t to harm the guy but yes I went to confront him, and as I said I went peacefully first but there were some others including himself who decided to act differently,” he shared.

Natta Nelson apologised for his aggression but emphasized

I cannot tell a parent how to act ...I would expect a parent to find

In underscoring his responsibility as a parent, Natta Nelson said: “That is the ultimate responsibility so before they see me as an ambassador or a financial advisor, see me first as a parent then those things after.”

Cricket World Cup 2023: Aiden Markram hits tournament's fastest century in record South Africa total

By Matthew Henry

BBC Sport in Delhi

Last updated on 13 minutes ago 13 minutes ago.

From the section Cricket

ICC Men's World Cup, Delhi:

South Africa 428-5 (50 overs): Van der Dussen 108 (110), Markram 106 (54), De Kock 100 (84)

Aiden Markram hit the fastest World Cup hundred as South Africa made 428-5 - the highest score in the tournament's history - against Sri Lanka in Delhi.

Markram made his ton off 49 balls, one quicker than Ireland's Kevin O'Brien against England in Bangalore in 2011.

He finally fell for 106 from 54, after Quinton de Kock and Rassie van der Dussen had also hit centuries.

David Miller then took the score beyond the previous record of Australia's 417-6 against Afghanistan in 2015.

Sri Lanka, who are coached by former England coach Chris Silverwood, crumbled amid the carnage on the flattest of pitches.

They leaked 21 wides and had to bowl the final two overs with another fielder up inside the ring because of a slow over-rate.

Matheesha Pathirana conceded 26 runs from the 43rd over, with the seamer's 10 overs costing 95 for one wicket.

It was also the first time in a Men's World Cup three batters have scored centuries in the same innings.

South Africa's in-form batting line-up has led to many, not for the first time in these competitions, tipping them as dark horses for a first white-ball title.

At the first opportunity they showed their prowess in devastating fashion.

After captain Temba Bavuma fell lbw to left-armers Dilshan Madushanka in the second over, De Kock and Van der Dussen built relatively carefully - reaching 48-1 after 10 overs and 118-1 from 20.

Van der Dussen, who was dropped at backward point on 71, scored all around the wicket, including reverse sweeps to the

spinners.

De Kock increased his intent after reaching his 50 from 61 balls, playing his trademark flowing strokes.

His 12th four, a fine flick through mid-wicket, took him to his first World Cup ton but he top-edged Pathirana a ball later.

That brought in Markram, whose innings began with glorious straight drives before becoming increasingly brutal as he struck 14 fours and three sixes.

Miller's 39 from 21 kept the scoring rate high, while it was a towering straight six from all-rounder Marco Jansen in the

penultimate over that set the new record.

There was also 32 from 20, including three sixes, by Heinrich Klaasen - one of five South Africa batters in the top 15 of the world rankings.

The rest of the tournament should take note.
